What we do and how we charge

Client Categorisation

At Strategic Solutions we have seven types of client categorisation. Your client categorisation will determine your initial and ongoing level of service and charges.

- 1. Starter** - Investors starting their financial journey with assets under £20,000.
- 2. Growth** - Investors seeking growth with an investment time horizon of over 5 years.
- 3. Income** - Investors seeking income within 5 years.
- 4. Final Salary Growth/Income** - Investors with a Final Salary pension requiring advice from a pension transfer specialist.
- 5. Transactional** - Investors requiring initial advice and product implementation but no ongoing advice.
- 6. Specialist** - Complex product implementation on a transactional basis.
- 7. Bespoke** - Larger cases including multiple, often complex, investment arrangements.

The diagram below aims to help you understand your potential client categorisation. Your classification and all charges will be confirmed and agreed with you in writing before any chargeable work is undertaken by Strategic Solutions Chartered Financial Planners.

Investment Services and Costs

Our charges fall into the following two categories:

1. Initial Fees

These are the upfront costs of our services. We offer several types of initial service depending on your needs. The initial fee is based on the value of the total initial investment plus additional costs depending on the complexity.

2. Ongoing Fees

Once your financial plan is in place it is important to keep it under review so it can be adapted, where necessary, as your circumstances change. Our ongoing services are designed to do this.

We will discuss your payment options with you and answer any questions you have. We will not charge you anything until you have agreed how we are to be paid.

Other Charges

Depending on the services we provide, there may be costs and charges (including taxes), not charged by us, but related to the financial products we arrange for you. These charges may be one-off charges (payable up front) or charges payable on an ongoing basis. For example:

Service costs: If your investments are held on a platform (an online investment administration service) or held with a Discretionary Fund Manager (DFM), the platform provider/DFM will make charges for administering/managing your investments.

Investment costs: These are the costs relating to the manufacturing and managing of your investments – for example, fees charged by the investment fund manager, costs relating to investment transactions.

We'll always disclose any third party costs as part of making our recommendations.

Initial Fee

Our initial fee covers the following services which are provided during the advice process with the exception of the initial meeting which, as stated, is provided without charge.

Services Provided

Initial Meeting

Identify your primary financial needs. We will also discuss the costs of the likely initial fee along with service options for your ongoing advice.

Gather Information

We will gather financial information to provide a comprehensive picture of your circumstances.

Analysis

Based on your agreed objectives we will work with you to complete a tailored financial plan. This written report provides an analysis of your current position and identifies areas that need attention.

Recommendations

Once the financial plan has been constructed we will go through this with you and confirm our recommendations designed to meet your stated objectives.

Implementation

When you have agreed to the recommendations as stated in your plan we will complete all the paperwork, liaise with the product/service providers, provide you with regular updates and ensure all the documentation is issued in line with expectations.

All our charges will be confirmed and agreed with you in writing before any chargeable work is undertaken by Strategic Solutions Chartered Financial Planners and your adviser.
